

# TSCA Breeder Seminar & Hands-On 2026

## Getting to Know You

This year's Breeder Seminar at the National will be a little different — and a lot more interactive!

In the spirit of sharing knowledge and learning from one another, we invite members to join us for an afternoon of connection, discussion, and hands-on learning.

Here's what to expect:

- 📁 Bring an album of your dogs — including photos, pedigrees, and information about your breeding program — to share with others.
- 🐾 Explore and compare dogs from the past and present to see how our breeding programs have evolved and where we can continue to improve.
- 👁️ Examine dogs with a judge's eye and discuss with fellow breeders what meets the standard and what could be refined.
- 💬 Share insights and experiences — the goal is to learn from one another and strengthen the next generation of Tibetan Spaniels.

Those wishing to participate with their dogs should sign up in advance on the TSCA website so we can plan accordingly. Grooming tables of those participating will be marked with balloons, making it easy to find each other. A laptop will be available to view the Judge's PowerPoint presentation. There is a \$10 participation fee which helps cover materials, goody bags and handouts. Register on the TSCA website.

Please consider sharing your knowledge, welcoming newcomers, and helping to teach the future of our breed!

📅 Date: April 23, 2026 ⌚ Time: 2:00 – 4:00 PM 📍 Location: Grooming Area Area
