# 2026 Tibetan Spaniel Health Seminar

## Genetic Testing for Health and Color

We're thrilled to announce our first-ever  
Tibetan Spaniel Health Seminar!

Join us for an enlightening evening with Dr. Kari Ekenstedt, Assoc. Professor in the Dept. of Basic Medical Sciences at Purdue University's College of Veterinary Medicine. Dr. Ekenstedt has a remarkable gift for making complex science clear and engaging as she walks us through everything breeders need to know about genetic testing from the basics to the latest breakthroughs.

Everyone attending will receive a complimentary raffle ticket (and yes, you'll have a chance to buy more) to win a hand crafted triangular stained-glass lantern by Diane Blassius, featuring beautiful Tibbie designs on each side. Follow the National Facebook page for sneak peeks as this one-of-a-kind piece comes to life.

 To help keep our Tibbies healthy, we'll be collecting cheek-swab DNA samples for Dr. Ekenstedt's research in the grooming area—once banked and frozen, these samples can help future genetic studies for decades to come!

Join us 5pm Friday, April 24th at the Host Hotel

This is a Free Event Sponsored by  
Tibetan Spaniel Health Net & TSCA Rescue & Health Trust
